

Our Service Charges are:

Full Service

Cost £90

Includes complete strip down of the bike plus cleaning and degreasing of all parts. Replacement of worn parts will be discussed at time of booking in and fitted as agreed. All threads are tapped as necessary plus BB & Head tube faced if required.

Standard Service

Cost £50

Includes adjustment of all components plus all bolts tightened to manufacturers recommended torque settings, setting up of gears and brakes. For an additional **£19.50** the bike will be cleaned and degreased. Replacement of worn parts as necessary

Special Service

Cost £60

Combines Standard Service with Bike Wash and Transmission degrease

Bike Assembly

Cost £42 – with gears

Cost £28.50 – without gears

Applies to bikes not purchased from ourselves that need assembling and includes checking the whole bike and ensuring that it complies with BS6102

Full Bike Build

Cost £130

We offer a bike building service for customers who have their own frame and components and require them to be assembled onto the frame.

This service includes tapping and facing BB & Head tube as required. All bolts are set to the manufacturers recommended torque settings using Park and Norbar torque wrenches.

Suspension servicing

Forks and rear Shocks serviced and tuned. POA

General Repairs
